

## Picking out your puppy

The puppies get chosen in the order that I received the down payments.

The first pick will need to be made by 6 wks \_\_\_\_\_.

The second pick will need to be made by 6 wks and one day etc. I will assign the days to you.

If it is not possible for you to come and pick out your puppy in person I will have an online photo sharing site with plenty of photos and videos for you to get a good idea of what each puppy is like. This has worked very well in the past.

If someone can't pick on their allotted day they are offered a choice...

\* either they send someone to pick their puppy out that they trust that day in their timeslot.

\* They come a day or two earlier and select their puppy. (making a first choice, second choice, etc)

\* They forfeit their first pick place and take the last puppy of that sex after everyone else has selected.

No Sunday visits or pick ups.
